SOW DROP

Maintains Individual Sow Condition through Precision Feeding

DURABLE

Molded of UV stable polypropylene, Sow Drop is capable of withstanding cold temperatures, UV rays, and exposure to harsh environments.

DEPENDABLE

GrowerSELECT's Sow Drop Control Unit lends dependable service controlling swine drop feeders. 12 lb. capacity for all models with proxy plus sensor.

PERFORMANCE

GrowerSELECT's Sow Drop allows sows to be individually and accurately fed, leading to a savings on labor, feed waste, and most importantly conditioning sows to maximum performance.

SOW DROP

Direct Installation

The open-top design allows installation of the unit directly on feed lines. Features large side access plug.

Durable Feed Slide

Positive open/close shut-off slide on top. Adjustable feed slide features fade resistant stamped lettering versus surface printed symbols, enduring wear from exposure to elements.

Quality Cable

Utilizes a long-lasting steel cable instead of a nylon cord to control the shut-off ball. Cable runs through Delrin® replaceable wear grommets.

High Density Ball

Constructed of high density plastic, the one-piece shut off ball does not require filler weight. Lifter cable can be replaced without disassembly of the ball.

8 lb. Sow Drop
