

Plastic Flooring

High-tech injection molding from virgin quality Polypropylene Copolymer creates durable, long-lasting plastic flooring.

Available in multiple grid configurations and sizes, Hog Slat's plastic flooring adapts to any building scheme.

HOG SLAT

Chess 600x800

Chess Nursery

Self-cleaning, 3/8" slots arranged in a multi-direction pattern give nursery pigs optimum traction. Sturdy design supports wider spans, reducing support beam costs. Suitable for pigs up to 130 lbs.

Swing Sow Sections

Combine Swing series with Rubin for complete farrowing floors. Choose from the various types of Swing sections for sow comfort; 5 & 10% solid for shoulders areas along with soft and GR series for lying and traction.

Rubin Creep

Rubin design offers an excellent combination of traction, comfort, and cleaning for small piglets. Available in multiple sizes with 3/8" slot width.

Delta Beam Supports

Delta Beam's edge profile interlocks with the flooring sections for extra security. Corrosion resistant fiberglass construction and triangular shape avoid manure buildup while furnishing high load bearing and buckling stability.

DUO Protect

Hygienic protective cap for supporting ledges.

Cast Iron Flooring

Hog Slat's ductile cast iron flooring

Features:

- ▶ Interlocks seamlessly with Hog Slat plastic flooring.
- ▶ Will not lift or pop out of place from the sow.
- ▶ Provides a cool surface for the sow.
- ▶ Allows for farrowing crates to be anchored directly to the cast, no brackets required.

Hog Slat offers a variety of interlocking cast flooring sizes. Hog Slat cast flooring is designed to fit the most common sized crates by utilizing only two pieces of cast flooring, as opposed to many other types which require up to 3-5 pieces to complete the flooring for common crate sizes. Fewer cast pieces aid in the integrity of the floor.
