Wet/Dry Feeder

Easy Maintenance

Unbolt side plate and slide the entire interior water bar assembly out the cutout.

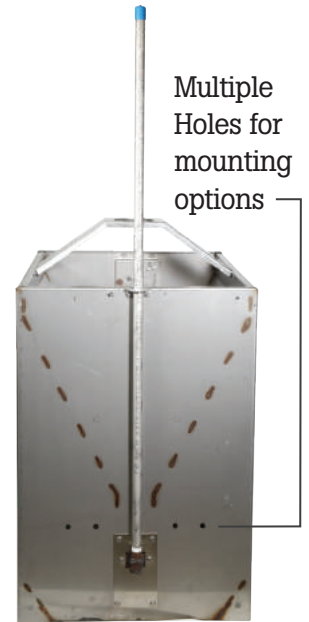

Clean out plug at end of water tube.

Two-Piece Water Bar

Vertical pipe is easily removed from horizontal bar, aids in maintenance.

Solid Trough Dividers

Reduce feed waste and increase durability.

Select-A-Flow Adjustment

Precise management of the feed shelf is provided by a special version of our proven Select-A-Flow adjustment. The innovative Cam Action provides close incremental adjustments to fine tune feed delivery on the shelf.
