

Egg Belts

Hog Slat egg belt can be used for either the replacement of old belts or new installation applications. It has been produced specifically for Hog Slat by one of the world's top manufacturers of webbing material and egg belts; this egg belt meets or exceeds the performance of other egg belt brands for a significantly lower price. Pre-Stretched Polypropylene Belt resists moisture absorption to inhibit the growth of bacteria and fungus. Herringbone weave keeps eggs in place.

Heavy .063" thick belt

- Less stretch (2.1% @ 500 lbs.)
- Reduced shrinkage (1.5% at 175°)
- Higher Breaking Strength.
- 2"- 8" widths available in 840'-1509' rolls
